

Shortcut of the day: Ctrl + B - Bold

Hello,

Shortcut of today is

Ctrl + B

What it does ? mainly:

1. Makes selected text **Bold** ? in most/all word processing software (Such as Word) as well as most text editing capable programs and applications both offline AND online.
2. Opens up **Bookmarks** in your browser (for Chrome: **Ctrl + Shift + B**)

DO comment to tell us of other actions for this shortcut.
